

## SUPERFLY BENCH # 159

Inspired by folded paper the Superfly family appears light and concise: an almost floating encounter between seat and frame. Despite appearances the actual construction is heavy and stable, intended for year-round outdoor use. The same dogma governs the choice of materials. Highly weather-resistant and UV-stable HPL join a frame of hot-dip galvanised, powder-painted steel. Modern materials and technology enable this highly robust unit to present with an almost playful simplicity.

**Available in Denmark and Sweden.**
